Chairman Nancy Spencer called the meeting to order at 9:00 a.m.

MEETING DATES

The Board set the board meeting dates for May 3rd and August 2nd and will decide at a later date for the November meeting.

SPECIALIZED COURSE

Nancy Spencer has contacted John Pratt from St. Joseph College who will be sending information regarding a correspondence specialized course. The University of Idaho may also offer a correspondence course through their masters program in the future.

TEMPORARY PERMITS

The Board discussed the issuing of temporary permits. Upon receipt of a completed application requesting a permit, the Bureau would contact a board member for approval before issuing the permit.

The Board noted that, before a temporary permit will be issued to an endorsement application, the applicant must hold a current active license in another state.

MASTERS PROGRAM

The Board reviewed and approved a masters program from California College for Health Sciences for Jeff Anderson.

REINSTATEMENT OF LICENSE

The Board discussed a request for reinstatement of a NHA license that was cancelled in 1990. The Board decided that the person must complete a new application and repeat the administrator-in-training program and retake the national and state exam.

ENDORSEMENT APPLICANT

The Board reviewed an endorsement application received from an applicant holding an inactive Washington license, which expires in 2001. The Board asked Roger Hales, Bureau Attorney to review the Idaho Code for clarification and the board would further discuss this issue at the May meeting.

PRECEPTOR COURSE

Nancy Spencer will contact the American College to see if they are planning a preceptor course for this summer.

Conference Call adjourned at 9:50 a.m.
